Suzanne F. Stevens, CSP brings 20 years of experience invigorating organizations across five continents. She delivers an educational experience that will inspire, challenge, and transform your audience's perspectives and actions on how to contribute to the community individually and collaboratively.

As an avid adventure traveler and accomplished business leader, Suzanne knows something being courageous.. In her early 40's, after 15 years of leading a training company, focused on leadership, sales, and internal communication development, Suzanne and her husband did something bold; they sold all of their worldly belongings and set off for two years to interview pioneering conscious-contributors in 21 countries and counting.

It is clear, we are on a cusp of a global shift, where organizations that are profit-driven are becoming purpose-inspired. And organizations that are purpose-inspired should consider being profit-driven. Because generations give differently, and the lines are blurring between work and life -- colleagues, collaborators, and clients want to connect to the organizations they associate with and the causes they contribute to. Suzanne shares strategies on how people and organizations can make their contribution count.

Suzanne is the founder of YouMeWe Group, a social enterprise, foundation, movement, web-Tv program, mindset, and a book. The mission is to inspire your audience to maximize their personal and collective meaning at work, and beyond, with consistent conscious-contributions™ to the community and beyond.
